

## 1115 Waiver Tracking Chart (as of March 15, 2019)

Provisions in State Waiver Applications Submitted to CMS

Proposal	Explanation of Proposal	Current Approval Status	State Applications
<i>Limits on Eligibility</i>			
<b>Work Requirements</b>	Condition eligibility of “able-bodied adults” on completing 20-40 hours of weekly work activities, such as paid employment, volunteering, or approved job training and search activities.	Previous administration rejected similar proposals as inconsistent with objectives of Medicaid Act	<b>Pending:</b> AL, MS, OK, SD, TN, UT, VA
	Number of hours required, categories of approved work activities, and exempt populations vary by state <sup>1</sup>	Current administration issued <a href="#">guidance</a> on January 11, 2018 supporting work requirements	<b>Approved:</b> KY <sup>2</sup> , IN, AR, NH, WI, MI, ME, <sup>3</sup> AZ, OH  <b>Withdrawn:</b> KS  <b>Denied:</b> NC <sup>4</sup>

<sup>1</sup> The applications also vary in terms of which populations would be subject to the work requirements. Some states would limit work requirements to the Medicaid expansion population: AR, AZ, MI, NC, NH, OH, and VA. Wisconsin has not expanded Medicaid under the Affordable Care Act but has submitted waivers that cover certain adults that would be within the expansion population. Utah has submitted multiple waiver requests pending. One, which was approved, covers narrow populations that would be within the expansion population; another proposes a partial expansion up to 95 percent FPL. Other states seek to apply the work requirements to *both* expansion and non-expansion populations, such as parents and caretakers: KY and IN. Finally, several states proposing work requirements have not expanded Medicaid, meaning the work requirements would apply only to non-expansion populations: AL, KS, ME, MS, OK, SD, and TN. Maine submitted its waiver application on August 1, 2017 before the ballot measure to expand Medicaid passed in November 2017. To date, Maine has not amended its waiver application to include the new expansion population.

<sup>2</sup> On June 29, 2018 a federal judge [ruled](#) that CMS’s approval of Kentucky’s waiver was arbitrary and capricious. The Court vacated the approval and remanded the decision back to the agency. After holding an additional comment period, CMS re-approved Kentucky’s project on November 20, 2108.

<sup>3</sup> After CMS’s approval, on January 22, 2019, Maine [rejected](#) terms of the waiver and withdrew its application.

<sup>4</sup> North Carolina’s request was [denied](#) because the state did not have state legislative authority to expand Medicaid and “CMS will not consider this program without state legislative authority.”
